NOTE FOR: Director, OCA

FROM: DCI

SUBJECT: Oversight

Dave:

Here is some material I've been holding on oversight, thinking I would talk to the committees about it, but the opportune time never seemed to come. You might be familiar with this material and I leave it to you to hang onto in case an occasion arises when we might use it.

RE: Oversight

In your letter to Senator Durenberger, you concluded by offering to meet with him/the full Committee to discuss your thoughts on how the oversight process might be made to work better.

In anticipation of a meeting you might want to have to discuss how you want to approach the Congress, various individuals have provided the enclosed material as food for thought:

- Memo from Stan Sporkin.
- Draft OLL memo on procedures to improve/tighten Congressional liaison.
- Two memos done by [redacted] (for Bernie McMahon) on improving security in the SSCI.
- Some additional thoughts on oversight by OLL.
- [redacted] paper on leaks with comments by Bob Gates.
